Authorization and Background

Authorization.
Educational Service Districts in the state of Washington are political subdivisions of the state that are organized under and operate in accordance with state statutes. Chapter 28A.310 of the Revised Code of Washington (RCW) is the primary statute that governs ESD’s. Chapter 28A.310 authorizes ESD’s to enter into contracts, to provide informational services and to establish cooperative programs. RCW 28A.310.200. Section 28A.310.180 (3) directs ESD’s to establish “joint purchasing programs.” DigitalEdge is a joint purchasing program of ESD 112 that has been established in accordance with, and is operating pursuant to, ESD 112’s governing law.

Background, Intent and Purpose.
The DigitalEdge at ESD 112 is responding to a request by districts to provide competitive contracts for various solutions. The outcome of this Invitation to Bid will be a convenience contract from which Eligible Purchasers can purchase products at competitively bid prices.

ESD 112 is acting as the agent on behalf of the Eligible Purchasers and Purchasing Organizations. The purpose of inviting bids is to support the Eligible Purchasers in several ways as they seek best pricing for the requested solutions:

- To make it easy for Eligible Purchasers to identify quality solutions for their classrooms and organizations;
- To save Eligible Purchasers the time, expense and energy of publishing their own competitive bids;
- To provide increased equity in pricing between large and small districts, while still providing even more competitive prices for large purchases;
- To assist districts in meeting their state’s purchasing requirements for their organizations;
- To share the cost of administering the Contract.

21st Century Schools.
A list of ways in which these devices support 21st Century classrooms includes, but is not limited to:

- Utilizing new teaching and assessment methods by teachers
- Creating personalized learning environments for students
- Supporting the Common Core State Standards
- Incorporating research-based instructional strategies
- Testing students, such as through the Smarter Balanced Assessment Consortium
- Supporting the new teacher and principal evaluation system (walk-throughs, data-collection, video-capture)
- Teletherapy and learning adaptation for special needs students
- Flipping classrooms, blended learning environments and online courses
- Virtual meetings and presentations
